AMENDMENTS TO THE SPECIFICATION

In the Specification:

Please replace the paragraph commencing at page 28, line 12 and ending at page 29, line 5, with the following amended paragraph:

The computer 1212 may further include a hard disk drive 1224, a magnetic disk drive 1226, e.g., to read from or write to a removable disk 1228, and an optical disk drive 1230, e.g., for reading a CD-ROM disk 1232 or to read from or write to other optical media. The hard disk drive 1224, magnetic disk drive 1226, and optical disk drive 1230 are connected to the system bus 1218 by a hard disk drive interface 1234, a magnetic disk drive interface 1236, and an optical drive interface 1238, respectively. The computer 1212 typically includes at least some form of computer readable media. Computer readable media can be any available media that can be accessed by the computer 1212. By way of example, and not limitation, computer readable media may comprise computer storage media. Computer storage media includes volatile and nonvolatile, removable and non-removable media implemented in any method or technology for storage of information such as computer readable instructions, data structures, program modules or other data. Computer storage media includes, but is not limited to, RAM, ROM, EEPROM, flash memory or other memory technology, CD-ROM, digital versatile disks (DVD) or other magnetic storage devices, or any other medium which can be used to store the desired information and which can be accessed by the computer 1212. Communication media typically embodies computer readable instructions, data structures, program modules or other data in a modulated data signal such as a carrier wave or other transport mechanism and includes any information delivery media. The term "modulated data signal" means a signal that has one or more of its characteristics set or changed in such a manner as to encode information in the signal. By way of example, and not limitation, communication media includes wired media such as a wired network or direct-wired connection, and wireless media such as acoustic, RF, infrared and other wireless media.
